SPARKLING VINEYARD

What American city makes the nation feel the most alive and vibrant? An online survey commissioned by Yellow Tail wines unveiled the top 10 nominees for "America's Most Sparkling City." The island of Martha's Vineyard is third, garnering votes from 51 percent of the 900 adults ages 21 and older contacted by **Greenfield Online**. More than half of survey respondents said "breathtaking scenery" (61 percent) and "great night life" (53 percent) make a city sparkle. Vote until June 15 at www.yellowtailwineusa.com to determine the winner, which will be unveiled during an Independence Day event in the winning city the week of July 4.
